

WARD STREET CORRIDOR IMPROVEMENT STUDY

COMMUNITY DIALOGUE

Community dialogue is seen as an important component of the study. Meetings are being held on a regular schedule with the county and township staff.

Two community information sessions are being held with stake-holders at strategic points in the study process. This will assure in combination with public information sessions that there is input on the study process and direction from all levels of the Bridgenorth community.

The purpose of the first public meeting is to gather relevant information from the community for use in the analysis. A second meeting will be held in the later summer/early fall to review the results of the study and present the preferred alternative plan for the Ward Street corridor improvements.
