

NOTICE OF STUDY COMMENCEMENT

PUBLIC NOTICE

**Township of Smith-Ennismore-Lakefield
Lakefield Water Supply and Storage System
Class Environmental Assessment Study
Schedule B (Phase 1 & 2)**

The Lakefield Water Supply System supplies municipal drinking water to the residents, businesses and industries in the Village of Lakefield. Upgrades to the existing water storage and distribution facilities are required to address current operational issues and ensure adequate distribution system pressures and fire flows are provided to meet the future demands of the Municipality.

ANALYSIS AND EVALUATION:

The planning of this project is proceeding as a *Schedule B* undertaking in accordance with the requirements of the *Municipal Class Environmental Assessment, October 2000, as amended in 2007* and prepared by the Municipal Engineers Association.

This Class Environmental Assessment (EA) study will include the identification and assessment of alternative solutions for required upgrades including the evaluation of impacts on the social, cultural, natural and economic environment.

PUBLIC INPUT:

Public input during the planning process of this project is encouraged. An information package will be sent out to all relevant review agencies. A Public Information Center for all interested residents will be scheduled further along in the planning process to provide additional information and answer questions regarding the project.

For further information or to provide comments on the Class EA for the Lakefield Water Supply System, please contact the Township of Smith-Ennismore-Lakefield or its Consultants at the following addresses:
